Using Technology To Increase Student Engagement

Wednesday, November 1 ~ 1:00-2:30pm (Eastern)

Once the live date has passed, this training will be available on demand.

Overview

The influence of technology on higher education is increasing at dramatic rates. Faculty are faced with choices about integrating technology into their teaching on a daily basis. This is often times overwhelming and frustrating as new tools are constantly being introduced, changed, or updated. It's essential to evaluate the validity of each technology tool we choose for teaching and consistently help our students to become more active as digital citizens.

The goal of this webinar is to provide participants with new ideas, evaluation techniques, and practical strategies for engaging their students through the use of technology. We will provide participants with technology tools that focus on classroom presentation techniques, maximizing LMS tools, movie-making resources, assessment techniques, web-based tools, and open educational resources. Each of these resources contain tools that can be used inside and outside the classroom. We will discuss how faculty can utilize these tools to create experiences and assessment strategies that engage students. Additionally, we will provide participants with a detailed document (emailed after the webinar) that includes step-by-step directions for all of the tools shared along with links to an additional collection of instructional videos in order to implement what they have learned.

Objectives:

- Understand the context of effective, research-based course-design principles
- Examine the potentially powerful role of technology in student learning and success
- Evaluate the relative value of varied digital learning options
- Create digital learning experiences for their students using a variety of digital tools and venues

Who Should Attend?

- Administration
- Academic Affairs
- Faculty (part-time & full-time)
- Online Learning
- Faculty Development
- First-Year Experience Leaders
- Any educator interested in learning more about engaging students through the use of digital technology

Speaker(s)

Brad Garner / Director of Faculty Enrichment
Indiana Wesleyan University

"We live in a digital age. As educators, we owe it to our students to provide them with the skills and tools to be digital citizens"

Brad Garner serves as Director of Faculty Enrichment in the Center for Learning and Innovation at Indiana Wesleyan University (IWU). Brad has been actively involved for several years in directing and teaching the first-year seminar on his campus. Currently, he leads faculty enrichment efforts across the entire university. Prior to moving into higher education, his career was focused on program and faculty development in K-12 public school settings where he worked as a classroom teacher, school psychologist, and administrator. Garner is a frequent presenter at conferences and workshops in the US and Europe and has authored and coauthor several publications, including *A Brief Guide to Millennial Learners* (2007), *A Brief Guide to Teaching Adult Learners* (2009) and *Teaching the First-Year Seminar* (2012), *Creating Engaged Learners and Digital Citizens* (2016), and *Digital Content Curation: A 21st Century Life Skill* (in press).
